## **Directors' Report**

---

Your directors present their report of Zeta Resources Limited ("the company") for the half year ended 31 December 2014.

### **Directors**

The names of directors in office during the half year and until the date of this report are as follows. Directors were in office for this entire period.

Peter Ross Sullivan

Marthinus Botha

Xi Xi

### **Principal activities**

The principal activities of the company are investing in listed and unlisted resource focussed investments.

No significant change in the nature of these activities occurred during the period.

### **Review of investing activity**

Commodity markets experienced material declines in the six months to 31 December 2014. Most notably, oil prices halved, with the WTI crude oil price down 49.6% to US\$53.45 per barrel. The gold price (London PM fix) was down 8.7% to US\$1,199/oz. while the nickel price was down 20.3% to US\$6.77/lb.

During the period under review, the net assets of the company fell from US\$84.4 million to US\$38.6 million. This was due principally to the decline in commodity prices, and the consequent decline in the share prices of Zeta's major listed investments.

During the period, the company increased its borrowings in order to make additional investments in listed companies.

### **Financial position**

At the end of the half year the company had \$285,645 in cash and cash equivalents. Investments at fair value totalled \$36,731,822, and the investments in subsidiaries were valued at \$9,166,892.

On the 9<sup>th</sup> February 2015, in conjunction with the investment manager ICM Limited, the directors decided to revalue the unlisted investment in Seacrest LP. This revaluation has had the effect of increasing the losses on financial assets through profit and loss by US\$2.1 million, as well as reducing the value of subscription and other rights by US\$2.1 million, as at 31 December 2014.

During the period the company made a loan to its wholly owned subsidiary Zeta Energy Pte Ltd for the purchase of listed investments from its parent company and to make additional purchases in these companies. At the end of the period the loan had been drawn down to the value of \$54,902,643. As a result of the reduction in the share prices, the loan has been impaired, through profit and loss, to the fair value of the listed investments acquired. The impairment for the period amounted to \$15,765,103.

The company has a loan owing to Utilico Investments Limited ("Utilico") of \$32,192,542 and loans owing to its subsidiaries of \$9,259,787 at the period end.

During the half year new loan facilities were also established and have been drawn down to the value of \$5,064,431 and the proceeds utilised to purchase further investments in existing holdings.

No new shares were issued during the period and no options were exercised during the period.

## **Results**

The net loss after income tax attributable to the company for the half year to 31 December 2014 is \$45,749,941.

## **Dividends**

No dividends have been paid or declared since the start of the period. No recommendation is made as to dividends.

## **After balance date events**

NZOG proposed a capital return which was approved by its shareholders on 19 December 2014. NZOG will cancel 1 in every 5 ordinary shares and pay NZ\$0.75 per ordinary share cancelled – effectively returning NZ\$0.15 per share. Based on the current holding of NZOG shares by Zeta, a payment of c. NZ\$10.2 million is expected to be received by Zeta in late February 2015.

## **Auditors' independence declaration**

A copy of the auditor's independence declaration is included in the report.

This report is signed in accordance with a resolution of directors.

A handwritten signature in black ink, appearing to read 'P.R. Sullivan', with a stylized flourish extending from the end.

### Report on Review of Interim Financial Information

#### To Directors of Zeta Resources Limited

##### Introduction

We have reviewed the accompanying condensed interim financial statements, which comprise the condensed interim statement of financial position of Zeta Resources Limited as at 31 December 2014 and the related condensed interim statements of comprehensive income, changes in equity and cash flows, for the six month period then ended, and selected explanatory notes. The directors are responsible for the preparation and presentation of this interim financial information in accordance with International Financial Reporting Standards. Our responsibility is to express a conclusion on this interim financial information based on our review.

##### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

##### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements of Zeta Resources Limited for the six month period ended 31 December 2014 are not prepared, in all material respects, in accordance with International Financial Reporting Standards.

## **Notes to the condensed interim financial statements**

---

### **1. Reporting entity**

Zeta Resources Limited ('the company') is an investment company listed on the Australian Stock Exchange and domiciled in Bermuda. The condensed interim financial statements of the company as at and for the six months ended 31 December 2014 comprise the company and its wholly owned subsidiaries.

### **2. Basis of preparation**

#### **2.1 Statement of compliance**

These interim financial statements have been prepared in accordance with IAS34 Interim Financial Reporting. The statements do not include all the information required for a complete set of IFRS financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the financial position and performance since the last annual financial statements as at and for the year ended 30 June 2014.

These interim financial statements were authorised for issue by the board of directors on 16 February 2015.

#### **2.2 Basis of measurement**

These interim financial statements provide information about the financial position, results of operations and changes in financial position of the company. They have been prepared on the historic cost basis except for financial instruments at fair value through profit or loss, which are measured at fair value.

#### **2.3 Functional and presentation currency**

The company's functional and presentational currency is United States Dollars.

#### **2.4 Use of estimates and judgements**

In preparing these interim financial statements, management make judgements, estimates and assumptions with regards to investments that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions are recognised in the period in which the estimate is revised and in any future periods affected.

The significant judgements made by Management in applying the company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements as at and for the period ended 30 June 2014.

### **3. Significant accounting policies**

The accounting policies applied in these interim financial statements are the same as those applied in the financial statements as at and for the period ended 30 June 2014.

## 16. Financial risk management

The Board of Directors, together with the Investment Manager, is responsible for the company's risk management. The Directors' policies and processes for managing the financial risks are set out below. These financial risks are principally related to the market (currency movements, interest rate changes and security price movements), liquidity and credit and counterparty risk.

The accounting policies which govern the reported statement of financial position carrying values of the underlying financial assets and liabilities, as well as the related income and expenditure, are set out in note 3 to the Accounts. The policies are in compliance with IFRS and best practice, and include the valuation of financial assets and liabilities at fair value through profit and loss.

### *Categories of financial instruments*

The analysis of assets into their categories as defined in IAS 39 "Financial Instruments: Recognition and Measurement" (IAS39) is set out in the following table. For completeness, assets and liabilities of a non-financial nature, or financial assets and liabilities that are specifically excluded from the scope of IAS 39, are reflected in the non-financial assets and liabilities category.

The table below sets out the classification of each class of financial assets and liabilities. All assets and liabilities approximate their fair values:

#### 16.1 Fair values of financial assets and liabilities

The assets and liabilities of the company are, in the opinion of the Directors, reflected in the Statement of financial position at fair value. Borrowings under loan facilities do not have a value materially different from their capital repayment amount. Borrowings in foreign currencies are converted into United States Dollars at exchange rates ruling at each valuation date.

Unquoted investments are valued based on professional assumptions and advice that is not wholly supported by prices from current market transactions or by observable market data.

##### Valuation of financial instruments

The table below analyses financial assets measured at fair value at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

- Level 1: The fair values are measured using quoted prices in active markets.
- Level 2: The fair values are measured using inputs, other than quoted prices, that are included within level 1, that are observable for the asset.
- Level 3: The fair values are measured using inputs for the asset or liability that are not based on observable market data.

## 18. Segmental reporting

The company has 4 reportable segments, as described below, which are considered to be the company's strategic investments areas. For each investment area, the company's chief operating decision maker ("CODM") (ICM Limited - investment manager) reviews internal management reports on at least a monthly basis. The following summary describes each of the company's reportable segments:

- Gold: Investments in companies which mine gold.
- Oil and Gas: Investments in companies which extract or prospect for oil or gas.
- Mineral Exploration: Investments in companies who mine minerals other than gold.
- Other segments: Activities which do not fit into one of the above segments.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before tax, as included in the internal management reports that are reviewed by the company's CODM. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the performance of certain segments relative to other entities that operate within these industries.
