QUARTERLY ACTIVITIES REPORT FOR THE PERIOD ENDED 30 JUNE 2024

Key Points

- Work on improving the economic outcomes of the recent Gum Creek Project scoping study is continuing with a focus on mine scheduling work to reduce initial pre-strip mining, dewatering costs and sustaining capital expenditure.
- The work completed during the quarter shows the Gum Creek Gold Project is a robust viable stand-alone mining operation that supports the commencement of a Feasibility Study.
- The Gum Creek Project retains significant upside including excellent potential to extend the proposed mine life through underground mining and additional drilling at the 12 resource areas not included in the scoping study.

Horizon Gold Limited (ASX: **HRN**) (**Horizon** or the **Company**) is focussed on progressing its exploration and development activities at the 100%-owned Gum Creek Gold Project (**Gum Creek** or the **Project**) located in the Mid-West Region of Western Australia (Figure 1). Gum Creek has historically produced more than 1 million ounces of gold and currently hosts a gold resource of **44.45Mt @ 1.50g/t Au for 2.14 million ounces** including a **1.30 million ounce (33Mt @ 1.22g/t Au) free milling gold resource**¹. The Project currently covers 504km² of granted tenure over the highly prospective and underexplored Gum Creek greenstone belt, which contains 37 open pit and three underground gold mines.

Horizon recently completed a scoping study (**Study**) on free milling, near surface open pittable resources, assessing the potential to recommence production through a new processing plant located at the previously permitted Gidgee mill site. Compelling financial outcomes were returned from the A\$2,900/oz gold price base case study including an initial open pit mine production target of 24.46Mt @ 1.13g/t Au for 888,000 ounces, a pre-tax cashflow of A\$574M, pre-tax Net Present Value at an 8% discount rate (NPV₈) of approximately A\$318M, a pre-tax IRR of 31.5%, and a payback period of 3.0 years from commencement of mining².

During the quarter, further work on improving the economic outcomes of the Gum Creek Project scoping study was completed with a focus on reducing pre-production capital expenditure. Deposits with lower strip ratios have been brought forward in the mining schedule to reduce initial pre-strip

mining and dewatering costs. The revised mining schedule will also potentially reduce sustaining capital expenditure through lower water management related capital requirements.

Evaluation of grade cutoff options and processing throughput rates has commenced, and geological modelling and wireframing of the Swan/Swift open cut, Howards and Shiraz gold mineralisation has been completed in advance of converting the Multiple Indicated Kriging (MIK) resource models to Ordinary Kriging (OK) resource models which better represents the style of mineralisation at the deposits.

The work completed during the quarter supports the Company's view that the Gum Creek Gold Project can be a robust viable stand-alone mining operation and accordingly the Board of Horizon Gold Limited are working towards the commencement of a Feasibility Study.

The Project retains significant upside including excellent potential to extend the proposed mine life through underground mining and other processing methods. Underground mining options at all deposits including Swan/Swift, Kingfisher, Omega and Wilsons are yet to be evaluated, and additional drilling at the 12 resource areas not included in the Study could potentially increase the resource size and gold grade of these deposits and elevate them to an economically viable status for inclusion into the mining schedule, adding to the mine production target and further enhancing the positive economic outlook of the highly prospective Gum Creek Gold Project.

Corporate

Funding

In June 2024, Horizon secured a short-term funding facility of up to \$1,000,000 from Zeta Energy Pte Limited (a wholly owned subsidiary of Horizon's major shareholder Zeta Resources Limited). The loan facility is unsecured, can be drawn in tranches of not less than \$50,000 and interest is payable at 8.0% per annum. The funds will be repayable by no earlier than 31 December 2024. At quarter end no funds had been drawn down on the facility.

Additional ASX Listing Rule Disclosures

As required by ASX Listing Rule 5.3, the Company advises it spent \$468,000 on exploration and evaluation activities during the quarter. The expenditure is predominantly related to costs associated with further economic evaluation of the Gum Creek Gold Project including engineering and geological consulting services, and ongoing tenement rents and rates. There was no mining development or production activities conducted during the quarter.

The total amount paid to directors of the entity and their related parties and associates (Section 6 of Appendix 5B) was \$137,000, encompassing the Executive Director's salary, Non-Executive Directors' fees and associated superannuation, and \$4,000 relating to geological drafting and administration services.

As at 30 June 2024, Horizon had a cash at hand balance of \$219,000.

Mining Tenements

The status of the Company's mining tenements as at 30 June 2024 are detailed in Appendix 1.

Competent Persons Statement:

The information that relates to the Scoping Study and the information that relates to Exploration Results in this announcement is based on information compiled by Mr Leigh Ryan, who is a member of The Australasian Institute of Geoscientists. Mr Ryan is the Managing Director of Horizon Gold Limited and holds shares and options in the Company, Mr Ryan has sufficient experience, which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Ryan consents to the inclusion in the report of the matters based on information provided in the form and context in which it appears.

No New Information or Data:

This announcement contains references to Mineral Resource estimates, all of which have been cross referenced to previous market announcements. The Company confirms that it is not aware of any additional information or data that materially affects the information included in the relevant market announcements and, in the case of estimates of Mineral Resources, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.

This announcement contains references to forecast financial information extracted from the Company's announcement titled "Compelling Gum Creek Scoping Study" dated 20 March 2024. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original announcement, all material assumptions and technical parameters underpinning the forecast financial information derived from the Scoping Study and included in the original announcement continue to apply and have not materially changed.

Forward Looking Statements:

This ASX announcement may contain certain "forward-looking statements" which may not have been based solely on historical facts, but rather may be based on the Company's current expectations about future events and results. Where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, forward looking statements are subject to risks, uncertainties, assumptions and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by such forward-looking statements. Such risks include, but are not limited to metals price volatility, currency fluctuations, as well as political and operational risks and governmental regulation and judicial outcomes.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
